

FANUC INDIA LIMITED

FANUC ROBOT Course for Students Community

FANUC CORPORATION, Japan is a pioneer in Computer Numerical Control (CNC) technology since 1956. In today's manufacturing world, "FANUC" is amongst the most reliable and dependable brands on any shop floor. This has resulted in achieving a dominant share in the demanding CNC and ROBOT markets.

FANUC India Private Limited is a subsidiary of FANUC LTD and was established in 1992 with its headquarters in Bangalore. Our main objective is to provide the Indian market with the entire range of top of the line FANUC products coupled with value added services, thereby delivering the least cost of ownership to our customers.

The Indian market for Industrial Robots is rapidly expanding as industries look towards more and more robotization, thus creating a demand for skilled engineers. To meet this demand and to create awareness of this emerging field among students, we are pleased to announce a 3 days tailor made Robot programming course for the student community.
